

IMPORTANT!!! PLEASE READ AND RETAIN THIS LETTER

Welcome to Regenr8 and our *Custom Regenerative Lifestyle!* We are excited that you have elected to join Regenr8 on your journey to optimal health and wellbeing.

The first step in our process is called *Analyze* - an epigenetic signature mapping that is able to analyze from a few strands of your hair, how your genes are expressing themselves based on the influences of your daily living patterns. A comprehensive nutritional profile and report is generated identifying your personal needs for key vitamins, minerals, amino acids, fatty acids, and antioxidants. From there, our organic plant-based Thrive Custom Superfood is created, specifically for YOU!

IT IS VERY IMPORTANT YOU REGISTER WITH US BEFORE SENDING YOUR HAIR SAMPLE, THROUGH ONE OF TWO WAYS:

1. Call our Healthcare Professional Program Concierge at 888-723-5553

-or-

2. Register Online at <http://register.regenr8.me/>

You will need the Regenr8 ID on your hair scan sheet to complete the registration process. Our Healthcare Professional Program Concierge is also available to answer any questions you might have regarding Regenr8 or our incredible products and services.

Thank you so much for joining Regenr8; we look forward to partnering with you on your journey to optimal health and wellbeing.
